### TECH SKILLS

#### BASICS

HTML5

CSS

JAVASCRIPT

#### LIBRARIES / FRAMEWORKS

REACT

ANGULAR

BOOTSTRAP

#### ENGINE

NODE.JS

#### PLATFORMS

NETLIFY

HEROKU

#### DATABASES

MONGODB

FIREBASE

### HOBBIES

### PROFILE

I'M Rafael Quarles, I have always been intrigued by computers and how they work. Coding was first introduced to me when I took a C# class in school and ever since I have grown more and more fascinated with every application I create. Im always eager to learn on the limitless ways to design, create, and improve the projects I work on. I never feel that a project is ever really finished as there is always room for improvement. As it has become my goal to learn the endless ways for improvemnet, I am eager to see what I am to create in the future.

### EDUCATION

#### Bachelor of Science in Computer Science Minor in Mathematics

KENNESAW STATE UNIVERSITY

Pursuing my Bachelors of Computer Science, I achieved a thorough education in the underlying theory, concepts, and science behind complex programming. At KSU, I discovered my passion for scalable application programming (web and mobile), the security behind computer and application systems, all the while developing a solid foundation in the many aspects of Computer Science.

### EXPERIENCE

#### SharePoint Intern

Codesigned | [codesigned.com](https://codesigned.com)

Assisted with the design of SharePoint sites for local business clients, worked computer coding basics and the structure of SharePoint Software as assigned by the Senior Vice President-Operations.

#### United Way Volunteer

United Way of East Missisipi | [unitedway.org](https://unitedway.org)

Held a volunteer position as a event organizer and web developer. Handled developing duties including web design and content management for the event on the local page.

### PROJECTS

#### VVA Website Design

Vietnam Veterans of America | [bit.ly/vvaweb](https://bit.ly/vvaweb)

With some given content and a goal to design a clean responsive site, I was to create a new web page for the Vietnam Veterans of America Ga Chapter.

#### MERN Expense Tracker App

MERN Stack App | [bit.ly/mernapp](https://bit.ly/mernapp)

Created a basic Expense Tracker using react using react hooks and used MongoDB as the database. Planning to develope further and add user auth and have this track month to month expenses and compare the monthly expenses with interactive charts.

#### Todo List App

Todo App | [bit.ly/todoappnetlify](https://bit.ly/todoappnetlify)

One of the first applications that I have developed with react, I created a basic todo list tracker. Using a .json placeholder for simplicity, I have learned many basic fundamentals to create a react application.
