HOBBIES

PROFILE

I'M Rafael Quarles, I have always been fascinated by computers and how they work. Coding was first introduced to me when I took a C# class in school and ever since I have grown more and more fascinated with every application I create. Im always eager to learn on the limitless ways to design, create, and improve the projects I work on. I never feel that a project is ever really finished as there is always room for improvement. As it has become my goal to learn the endless ways for improvemnet, I am eager to see what I am to learn and create in the future.

EDUCATION

**Bachelor of Science in
Computer Science**
Minor in Mathematics

KENNESAW STATE UNIVERSITY

CLASSES

- Programming .NET Framework
- Computer Architecture
- Linux OS and Networking
- Web Development
- Cloud Computing
- Programing Principles

EXPERIENCE

SharePoint Intern

Codesigned | [codesigned.com](#)
Assisted with the design of SharePoint sites for local business clients, learned computer coding basics and the structure of SharePoint Software, completed office tasks as assigned by the Senior Vice President-Operations. Tasks included data entry, answering phone calls, and organizing special office events for 25 software design professionals.

United Way Volunteer

United Way of East Missisipi | [unitedway.org](#)
Held a volunteer position as a event organizer and web developer for a "Stuff the Bus" event. Handled developing duties including web design and content management for the event on the local page.

PROJECTS

VVA Website Design

Vietnam Veterans of America | [bit.ly/vvaweb](#)
With some given content and a goal to design a clean responsive site, I was to create a new web page for the Vietnam Veterans of America Ga Chapter.

Pet Kennel Website Design

Paws4U Kennels | [bit.ly/paws4uweb](#)
Created a template design for a kennel homesite.

KSU Corner MVC App

KSU Corner | [bit.ly/ksucorner](#)
Created a a social MVC application for ksu students to use. Each will have their own profile to use and connect to each other on.

C Code Hangman App

C Hangman | [bit.ly/c_hangmanWeb](#)
Designed a hangman app using only the c language.
